Greetings from Leominster Consulting & Tax, LLC,

A little over a year ago, we merged with David J. Singleton's CPA practice. During the past year, we have had a chance to meet many of you and even worked on many of your 2023 tax returns. We've worked tirelessly to migrate with Dave's practice here at 66 West Street in Leominster to ensure we maintain the same level of customer service and quality you've enjoyed for many years with David Singleton. We're happy to announce Dave will be returning part-time this tax season, and we are excited to have him!

A brief note about the owner, Alexander P. Ryan, CPA:

Alex is a CPA with 17+ years' experience and a resume that includes Deloitte, Boston Consulting Group & jumpstarting several successful local companies, including Leominster Consulting & Tax in 2022. As a Leominster Native, who moved back from Boston in 2015 to raise a family of his own, he is deeply invested in the community. Alex strives to work hard to provide you the best possible services for your money.

Our goal is to form lasting relationships with our clients for years to come. Don't hesitate to call, email or stop by if you have any questions/concerns.

For your convenience, we will email Individual, Small Business & Rental Property Templates & Checklists to assist in your tax preparation & accounting needs.

Don't want to print documents and drop them off? Easily upload your tax documents to an encrypted folder from your computer or smart phone. If you are interested, please email [tlong@best-cpas.com](mailto:tlong@best-cpas.com) to request your personal encrypted folder.

Did you know that Tax planning and advisory services are supplemental to your annual federal & state tax form preparation/filing? These fee-based services are intended to provide significant tax savings to you and avoid costly mistakes.

In addition to tax return preparation & tax advisory, we do provide advisory for general business management, purchase & sale of businesses, accounting management & operational structure. Please Inquire, if interested, in the supplemental services.

We aim to provide a quality service at a reasonable price. If you have pricing concerns, please let us know ahead of time. Hyperinflation post-COVID has impacted the CPA industry (even chain companies like H&R Block/Jackson Hewitt). Labor, tax software and other administrative costs have risen greatly in the past few years directly impacting our pricing.
